## Summary

In Number Munchers, you play as a Muncher and your goal is to eat as many correct numbers as possible. The correct number criteria is listed at the top of the game board for each level. Each correct answer earns you points. Each incorrect answer causes you to lose a life. Avoid Troggles who will eat you if you land on their space. If you are eaten by a Troggle, you lose a life. Safety Squares are spots indicated by corner brackets where Troggles cannot enter. Use the Arrow Keys to move the Muncher. Use the Space Bar to eat a number.
